

Stand: 19.03.2015

Workshop “Basics of biological membranes and model systems” Program 31st March—1st April 2015

Venue:

“Alte Frauenklinik“
SR 142/ 143
Wollweberstr. 1
Greifswald

31st March

09:00 – 10:30	Cell organelles & membranes — Part II (Prof. Lendeckel)
10:30 – 10:45	Coffee break
10:45 – 11:30	The role of mitochondria in pancreatic physiology and pathophysiology (Prof. Mayerle)
11:30 – 12:30	Lipid bilayer as model systems— Part I (Prof. Brezesinski)
12:30 – 13:30	Lunch break
13:30 – 14:30	Lipid bilayer as model systems— Part II (Prof. Brezesinski)
14:30 – 14:45	Coffee break
14:45 – 16:15	Lipid monolayers as model systems (Prof. Helm)

1st April

09:00 – 10:30	Probing Lipid Layers and Membranes by AFM: Technical Aspects and Overview of the Current Research (Prof. Papastavrou)
10:30 – 10:45	Coffee break
10:45 – 12:15	Scientific writing— personal view and experiences (Prof. Scholz)
12:15 – 13:15	Lunch break
13:15 – 14:45	Cardiolipin — a phospholipid with several functions (Prof. Schild)
14:45 – 15:00	Coffee break
15:00 – 15:20	Workshop-evaluation
15:20 – 15:35	Organizational matters
